Sheena's

Salon & Spa

NovaLash Lash Extensions are a glamorous new way to extend the length and thickness of natural eyelashes and a convenient and beautiful alternative to the daily use of mascara.

Because each tapered, synthetic lash/fan is bonded to a single natural lash, the final result is of effortless glamour and difficult to detect even close up.

The cost of the 30-minute trial will be deducted from the price of your first full set.

Classic with novaMINX

The Classic lashes are available in different lengths and curls—customized to your preference. Our lash technicians perform one-to-one application to your natural lash.

The novaMINX lashes mimic luxurious, glossy mink fur. They are extremely soft, flexible, and light and are known for their “fluttering” appearance. They are also applied one-to-one to your natural lash.

American Volume

American Volume lashes are the thinnest and lightest lash option. Technicians apply these lashes two-, three- or four-to-one to your natural lash, presenting a heightened, more voluminous appearance.

Aftercare Instructions

- 1** Any cosmetic product or cleanser containing glycols, organic solvents, urea or high concentrations of alcohol should be avoided because they can potentially break down the adhesive bond and shorten the lifespan of the extensions.
- 2** Curling of Novalash Eyelash Extensions is not recommended. The extensions are pre-curved so additional curling is not necessary and may shorten the lifespan of the extensions by compromising the adhesive bond.
- 3** Avoid pulling, picking or twisting your extensions. This can cause damage to your natural lashes and lead to premature shedding of your extensions.
